

**ITE INFLAMMATE OMNIA
FOLLOW UP**

August 1, 2012

Short-term Networking initiatives:

- Exchange programs: students, teachers...
- Common Collaboration projects (e.g. Ignacianos por Haiti)
- Twinning with other individual schools
- Knowledge management consultation for the physical network
- Survey technology available in the schools
- Network mapping
- Database about our schools.
- Assign a member of the school leadership team the responsibility for global networking
- Share what happened here with our school communities.

Middle-term Networking initiatives:

- New document on the Jesuit/Ignatian identity of our schools
- Newsletter and web page
- II ICJSE
- Re-structuring of the Secretariat

Long-term Networking initiatives:

- Develop strong local and regional networks (follow-up on management consultation and network mapping)
- Educate our school communities about GC 35's vision of Jesuit/Ignatian culture: serving the global mission as a global community
- Training faculty as members of a global network
- Develop curriculum that educates our students to see themselves as part of a global network and develops them into global citizens.
- Develop a common "International Jesuit Baccalaureate program."
- Promote advocacy programs for quality education for all.
- Develop networking with Jesuit school networks and Jesuit-inspired networks working with the poor.
- Develop networking among existing pedagogical centers of the Society
- Develop networking with other Jesuit networks: higher education, social networks, etc.
- Develop networking with other non-Jesuit networks in the Catholic Church
- Develop networking with other non-Jesuit networks outside the Catholic Church
